Education

The University of The East

Bachelor of Science in Computer Science

Relevant Coursework: Data Structures & Algorithms, Software Engineering (Agile, UML), Web Development, Machine Learning, AI & OCR Systems, Database Concepts

Work Experience

- **Lead Developer – Photon (AI-Powered OCR Code Assistant)** Sep 2024 – Nov 2025
 - Developed an AI-assisted OCR system for Python code extraction, achieving 99.6% accuracy, 99.5% mAP@50, and 99.3% precision using a custom CNN model.
 - Designed a React, Flask, and MongoDB platform with AI-powered code correction, real-time code execution, and OCR workflows, earning a 3.23/4.00 overall user evaluation from 35 participants.
- **Digital Media & IT Intern - Lifestyle Travel** June 2025
 - Created infographics, posters, and short-form videos to support social media marketing and digital campaigns.
 - Provided technical support by resolving digital platform issues and restoring secure access to company social media accounts through account recovery and troubleshooting.
- **Freelance Game Developer & Pixel Artist – Upwork** May 2022
 - Designed and delivered pixel art UI, characters, and in-game assets that met technical requirements and visual design standards.
 - Contributed to gameplay feature implementation in Unity using Bezi while collaborating through Git in an Agile development workflow.

Projects

- **OC Lawnmowers Website**
 - Developed and maintained a responsive website for a lawn mower sales and repair business, including automated contact forms and service inquiry workflows.
 - Contributed to the company's online presence, supporting 166 monthly customer interactions, including 45 calls, 28 website visits, and 93 direction requests through Google Business Profile.
- **Michelin Guide Philippine Website**
 - Built a responsive web application to display and filter Michelin-listed restaurants
 - Built responsive layouts, service pages, and modern UI components

Certifications

- Supervised Machine Learning: Regression and Classification — Stanford Online & DeepLearning.AI | Coursera (2026)
- SQL Foundations — Microsoft | Coursera (2026)
- Hands-On Automation with n8n & Workato — HurixDigital | Coursera (2026)

Skills

- Programming Languages: Python (Proficient), JavaScript, Java, C++
- Web Development: HTML, CSS, Bootstrap, React, Flask
- Data, AI & Databases: OCR Systems, Pandas, TensorFlow, MySQL, Database Concepts
- Tools & Methodologies: Git, GitHub, VS Code, Agile, UML, REST APIs
